#### **CHAKRAS 2010-2012**

We are currently developing new chakras and new chakra formations. In addition, from now (2010) until and including 2012, cosmic light inflow into the 7 main chakras is enabling humans and the planet to evolve in specific ways. E.g. light inflow into the abdominal chakra releases conditioning and planetary negativity. This chakra evolution creates significant stresses that we must understand and use positively.

**CHAKRAS 2010-2012** is not a chakra course in the normal sense. You will not "learn about" the 7 main chakras. This hands-on course will assist you to use the new chakra developments in your self development, and also enable you to help others who are experiencing the stresses and needs within this evolution.
